IDEA 2272

Copy 7

19 November 1964

MEMORANDUM FOR: Chief, Intelligence Division, OSA

SUBJECT: Outstanding U-2 Requirements in the Far East

**REFERENCE: Memo to AD/OSA from C/ID/OSA,
dated 19 November 1964; Subject: Same
(IDEA 2266)**

1. I discussed the contents of subject paper with Colonel Emerich, JRC, and relayed to him the sense of our position. I also promised I would get back to him next week when CWG comes up with a requirement.

2. I thought you might be interested in the fact that he told me that BLUE SPRINGS is stood down in the Eastern part of South China until 2 December, apparently by OSD. In the meantime, however, he says they are free to operate as requirements dictate in the Western end, by which he means that portion of South China to the North and West of Laos. According to Emerich, their plan is to launch the drone from the C-130 over Northern Laos, proceed on its flight plan thereafter, and recover at Danang.
